Master Clinic Replay Now Available!

The replay of the **July 25th Master Clinic** is now available on the CFOA website.

As a reminder, if you did **not** attend the Master Clinic either in person or online the day of the event, you **must** complete the online replay to remain eligible to officiate this season.

To view the replay:

1. Log in to the CFOA website.
2. Navigate to **Testing > MC Replay**.

Viewing Requirements

The replay is **approximately two hours long**.

- Your viewing progress is automatically saved every **60 seconds**.
- If you need to stop watching, you can return later and the replay should resume within approximately one minute of where you left off.

To receive credit for completing the replay, you must:

- Watch the video in its entirety.
- Correctly answer **three questions** that will appear during the presentation.

If you answer a question incorrectly, you will immediately be presented with a second question. If you answer **both questions incorrectly**, you will not receive credit for that viewing attempt and will need to start over.

Each official is allowed **two attempts** to successfully complete the replay. The questions are not intended to be difficult. Their purpose is simply to verify that you are actively engaged while watching the presentations.

Completion Confirmation

Once you have successfully completed the replay, you will receive both an **on screen confirmation** and an **email confirmation** indicating that you have received credit.

All testing and the ability to watch the MC replay will conclude at 11:59PM on Wednesday, 8/19/2026. Please don't wait until the last minute to complete your testing and Master Clinic requirements.
